

lighting design internship autumn 2020

“ From concept sketch
to detailing and final
focusing in the dark - it's all
about creating architecture
with light

Jesper Ravn,
Architect and Lighting Designer

Specializing in mobility and utilities, Gottlieb Paludan Architects create architecture for the core functions of society. Our aim is to combine aesthetic qualities and technical solutions to create better cities and societies. We believe that simplicity holds a beauty of its own – and we regard light as a building material on equal terms with any other.

We are looking for an intern with

- a keen interest in architecture, landscape architecture and design
- deep curiosity for and good understanding of daylight and artificial light
- a strong team spirit

If this resonates, apply to join our professional team working to integrate light and architecture.

Our ideal intern has completed the first year of a masters' education or two years of a bachelors' education in the field of lighting design and routinely works with models, sketches, cables and fixtures, light calculation programs, 3D modeling, renderings, layouts etc.

We are an internationally oriented company and welcome applicants of any nationality.

Join a visit at our offices on **Thursday the 12 of March 2020 at 3 pm** to learn more about the opportunities at Gottlieb Paludan Architects. The event will be hosted by Architect and Lighting Designer, associate IALD Jesper Ravn. Please let him know that you will participate by e-mailing jr@gottliebpaludan.com

**OPEN
HOUSE**

**THURSDAY
12 MARCH
AT 3 PM**

Your application in Danish or English should be a pdf file not exceeding 12 A4 pages in total and submitted no later than **23th March 2020** to praktik@gottliebpaludan.com Please state *Lighting Design Intern* in the subject field and exclude personal information such as CPR number.
